Matthew Klapchar

I am seeking a position where I can put my creativity to create attractive and useful websites for my clients. I look forward to the challenges that will be presented to me and will work confidently with my team to create something I can be proud to have been a part of.

2020 - Present

Experience with HTML & CSS
Self-Taught

Even outside of my education, I worked hard to familiarize myself with the aspects of web design that involve coding. I have used various outside resources to learn the best practices of using HTML and CSS to create a styled webpage.

Fall 2021 – Spring 2024

AAS in Web Design
Wake Technical Community College
Key classes include:

- Web Design
- Mobile Web Design
- Web Markup and Scripting
- Adv Web Markup and Scripting
- Adv Graphic Design Tools
- Web Development Tools
- User Experience Fundamentals
- Intro to Audio/Video Media

Positive traits:

- Creative
- Teamwork
- Organization
- Kind & Respectful
- Time Management

2022 - 2023

Experience with JS
Wake Technical Community College

My classes at Wake Tech introduced me to the amazing language of JavaScript. I am familiar with several frameworks used within JS and the many features that JS can bring to a project when implemented with style and determination.

2015 - Present

Experience with Microsoft Office & Adobe
Self-Taught & Wake Technical Community College

For years I have used various Microsoft Office products such as Word, PowerPoint, and Excel as well as Adobe products such as Photoshop, Premiere Pro, and Illustrator. My own experience with these has been greatly supplemented by my education. While I may not be an expert at using them all, I am familiar with their capabilities and their functions.
